

STATE ITEMS OF INTEREST.

APPOINTMENTS MADE.

Gov. Taylor Selects W. H. Mackey and A. M. J. Cochran as State Election Commissioners.

Frankfort, Ky., Dec. 29.—Gov. Taylor Wednesday afternoon appointed W. H. Mackey, anti-Goebel democrat, and A. M. J. Cochran, republican, state election commissioners. The republican minor state officials-elect, whose contests will come before the board, have not decided exactly what course they will pursue, but as Clerk Shackelford will swear in the democratic commissioners appointed by Commissioner Poyntz, it is probable Taylor's appointees will institute mandamus proceedings to get possession of the offices. Democratic leaders do not believe the courts will hold Taylor's appointments good, but they do not disguise the fact that they regret the complications growing out of the resignation of former commissioners Fryor and Ellis.

A few scattering members of the legislature began arriving Wednesday, and it is anticipated that owing to the unusual interest growing out of the contests for governor and lieutenant governor, nearly all will be here by Saturday or Sunday. Friends of ex-Election Commissioner Ellis are, with his authority, discouraging a movement among some of the anti-Goebel democrats to give him a boom for senator. Ellis is unqualifiedly for Blackburn.

Norwood, in this county, and five are trotting bred mares, consigned to Theodore Schleisenger, at Vienna, Austria. Mr. Morgan's horses are broken and ready for hunting purposes. The Schleisenger mares for export are to be used for breeding trotters in that country.

COURTS MAY SETTLE IT.

Question of Who Shall Fill Vacancies in the Board of Election Commissioners.

Frankfort, Ky., Dec. 28.—Questions concerning the make-up of the state board of election commissioners may be brought before the courts before the commissioners sit as a contest board to pass upon the claims made by the democratic candidates for the state offices below that of lieutenant governor, which are now held by republicans. The point of contention is the procedure to be followed in filling the vacancies caused by the recent resignation of Commissioners Fryor and Ellis. The democrats have construed the law to provide that such vacancies are to be filled by the remaining members of the board and on this theory John Fulton was appointed to fill one of the vacancies. Commissioners Poyntz and Fulton are to meet here Thursday to elect the third member of the board. The republicans now make the assertion that these vacancies should be filled by appointment of Gov. Taylor. It is said the governor will make nominations to fill the vacancies and that the question will then be taken into the courts.

Received a Fatal Blow.

Richmond, Ky., Dec. 23.—While drinking and in a prankish mood Marcus Devore, son of William Devore, superintendent of the Richmond Transfer company, killed John Miller, colored, by striking him on the temple with an unloaded pistol. There had been no previous ill feeling between the men. Miller, who was employed in Lexington, had just arrived on a train to visit his mother, and stepped into Sexton's saloon to get a drink. After being struck by Devore he walked a half mile to the police judge's office and had a writ of arrest issued for Devore. Then he went to his mother's home and before he could tell her what had happened he fell dead from exhaustion.

Shot and Killed.

Hawesville, Ky., Dec. 29.—Near Lyons a blind tiger proprietor named McAvie was shot through the head and killed, and Dan Burke received a bullet in his arm. Mike and Andrew Burke surrendered. Dan Burke once pleaded guilty to murder to save a friend, and was acquitted on the ground of self-defense. Andy Burke was once a Rough Rider.

PRACTICAL PHILANTHROPY.

A Most Worthy Cincinnati Enterprise That Should Be Generally Known.

Who has not heard of those hotels in New York and other Eastern cities in which people who have no homes and whose means are limited find a substitute for a home so far as comfort is concerned. Much has been written in praise of these hotels and the good they have accomplished.

Perhaps few are aware that a model hotel of this kind has opened its doors in Cincinnati to young men without homes, which compares most favorably with the Eastern hotels of this character.

The hotel is called the "Columbian," located at the corner of Longworth and Elm streets. It is the property of one of the most prominent citizens of Cincinnati, who makes the investment, not for profit, but to help those in need of such accommodations without having to fall back on the "saloon."

The basement of the six-story structure devoted to this enterprise, is fitted out with baths, nicely and conveniently arranged, which are free to patrons. There is also a small hall in the basement, where games, such as cards, dominoes, chess, etc., add to an evening's amusement and affords pastime.

On the second floor we find the reading room where the most prominent newspapers and periodicals are distributed for the use of the guests.

The other floors are laid out in lodging rooms, containing bed, chairs and books fastened to the wall, to hang garments. Cleanliness reigns supreme, and is indeed exemplary, and it is said to the credit of the establishment that even the most fastidious housewife could not find cause for complaint on this score.

The beds are iron, and the linen is changed daily, so that each guest at evening finds a freshly covered bed. Wardrobes are placed in those rooms which are particularly set apart for guests who live for any length of time at the hotel. On each floor there are also several marble washstands and other necessary appointments. As before stated, everything is thoroughly neat and clean.

There are accommodations for about two hundred guests. The price for lodgings is 25 cents per night, with the use of the bath, and this price holds good whether the lodger is a guest of the hotel for one night only or for any length of time.

The rooms are heated by steam, and the hotel is lighted by electricity throughout. A commodious elevator connecting several stories is another great convenience of the hotel.

The building is constructed of iron and stone and is therefore as perfectly fire-proof as can be made. Furthermore, fire escapes, easy of access from all parts of the building, make the exit, in case of fire, an easily accomplished matter.

The whole is a model institution, and offers to its guests, at a very reasonable price, many of the comforts of home. To a great many men, his hotel has indeed proven a great blessing and deserves the fullest recognition.

The undertaking is a philanthropic one, the cause good, and although not proclaimed from the houseposts, the establishment fills all expectations, and if these lines bring to a wider circle of acquaintance this "Model Hotel" they serve a good purpose.

NURSERY CARS.

Here is a 'Wall from a Bachelor Who Is Particular About Traveling Companions.

The innovation of a nursery car upon our railways—or, at any rate, upon the long-distance trains—would be an institution hailed with delight by all men and most women, says the Cincinnati Enquirer.

How many men who do not themselves smoke invariably travel in a smoking carriage because there they feel more secure from an invasion of children and babies than in any other part of the train.

Babies form a class entirely by themselves in the category of unpleasant traveling companions, and there are probably few who at some time in their lives have not had experience of the noisy, sticky-fingered, peppermint-sucking, dear little children, who trample on your toes and deposit luscious, half-sucked gobs of taffy on your trousers in their endeavors to reach the window to put their heads out, whence they are promptly hauled back by anxious mothers or nurses, and cry, or the babies in arms who placidly assimilate milk from a bottle until jolt of the train makes them choke, having at that moment more nourishment than they can possibly deal with; or the inquiring child who plays with the hinges of the door until the guard slams it; or the child who is perpetually feeding, and throughout the journey sits in a semitropical state sucking oranges; the all-pervading odor of which fills the carriage.

Babies are all very well, but a baby in a railway carriage, like a bull in a china shop, is out of place.

Latest in Advertising.

A new scheme of advertising was resorted to by a progressive business firm in a prosperous city in the south. The junior partner of the firm swore out a warrant for the arrest of the senior partner on the ground that he was selling goods below cost and that the firm was constantly losing money thereby. The case came up in court and the counsel for the senior partner asked for a postponement in order to have more time to prepare his case. The judge granted the request, bail was fixed and the senior partner released. As he left the courtroom the junior partner arose and exclaimed: "If he is released the sacrifice will go on!" The news soon spread and the firm did a better business. When the case was again called on the plaintiff appeared and the charge was dismissed. The firm had succeeded in their object—advertisement.—Philadelphia Call.

Mormonism.

This is a question that should interest every one. It is a blot upon our fair land—a symptom of governmental ill-health. The right law would act as a speedy upon it as Hostetter's Stomach Bitters does upon constipation or dyspepsia. They would quickly clear it out and restore healthy purity; and this is just what the Bitters does for the human constitution. It makes the stomach strong by curing indigestion, biliousness and liver trouble.

Equality of the Sexes.

Woman certainly stands at last upon a footing more nearly equal with that of man. For instance, she may no longer gain entrance into the column of the purely literary magazines by merely murdering somebody, but has, as her brother, to go in search of the north pole, or to ride many consecutive centuries upon a bicycle, etc.—Boston Journal.

Beware of Ointments for Catarrh That Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is often tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

U. S. SENATOR ROACH

Says Peruna, the Catarrh Cure, Gives Strength and Appetite.

Hon. W. N. Roach, United States Senator from North Dakota.

Hon. W. N. Roach, United States Senator from North Dakota, personally endorses Peruna, the great catarrh cure and tonic. In a recent letter to The Peruna Medicine Company, at Columbus, Ohio, written from Washington, D. C., Senator Roach says:

"Persuaded by a friend I have used Peruna as a tonic, and I am glad to testify that it has greatly helped me in strength, vigor and appetite. I have been advised by friends that it is remarkably efficacious as a cure for the almost universal complaint of catarrh."

Senator Roach's home address is Larimore, North Dakota. Peruna is not a guess, nor an experiment; it is an absolute, scientific certainty. Peruna cures catarrh wherever located. Peruna has no substitutes—no rivals. Insist upon having Peruna. Let no one persuade you that some other remedy will do nearly as well. There is no other systemic remedy for catarrh but Peruna. Address The Peruna Medicine Company, Columbus, Ohio, for a free book on catarrh, written by Dr. Hartman.
